

DESCRIPTION: The Medical Case Management (MCM) Certificate Program is designed to bring a foundation of best practices and innovative approaches to Medical Case Management service providers. The program provides learners a solid knowledge base, along with the clinical skills required to succeed with a diverse set of client needs. The blended (online and in-person) curriculum includes a two day in-person training, and 14 courses, approximately 12 hours of online training. This program is also offered in an online-only format. For more detail, please visit Coldspring Center’s website: www.coldspringcenter.org.

IN-PERSON TRAINING:

This two-day interactive and experiential training dives into the core of what it means to be a medical case manager, and how to achieve maximum outcomes with a client-centered approach. The in-person training builds on the content presented in the online training, and provides an organization or system of care with a common language and focus. This knowledge and skill development can facilitate long-term change and improve quality of services. The whole package of trainings provides the opportunity to build confidence and ability, and to practice learned skills.

The training content includes:

1. **Motivational Interviewing Skills Building** – Focuses on the implementation of theory and approaches introduced in the Motivational Interviewing online training to improve confidence and practical application of the skills
2. **Trauma Informed Medical Case Management** – Includes information on the impact of stress and trauma on the brain and behavior and provides a framework to understand the MCM’s role in working with a stressed/traumatized client.
3. **Thrive: Self-Care & Culture** – Examines the importance of the health and well-being of the case manager, and the case management team. Includes concrete tools to build individual and team resilience.

Note: Learners will be asked to complete the online portion of the program before attending the in-person training.

ONLINE TRAINING:

Foundations in the Helping Professions Series: 5 courses, approximately 4 hours of training

The first set of online courses is the Foundations Series, which contains courses that are the foundation to MCM services. These include:

1. Introduction to the Medical Case Management Certificate – Provides an introduction to the certificate and a presentation of best practices in Medical Case Management
2. Structuring the Helping Relationship – Includes information on boundaries, ethical decision making, and mandatory reporting
3. HIPAA and Confidentiality – Examines the importance of confidentiality and privacy practices in MCM
4. Multicultural Approaches in the Helping Relationship – Looks at effective ways to work across different client populations
5. Understanding and Handling Difficult Situations – Examines how to work with escalated and angry clients

Motivational Interviewing (MI) Series: 9 courses, approximately 8 hours of training

According to MI's founders, William Miller and Stephen Rollnick, "Motivational Interviewing is a collaborative, goal-oriented style of communication with particular attention to the language of change. It is designed to strengthen personal motivation for, and commitment to, a specific goal by eliciting and exploring the person's own reasons for change within an atmosphere of acceptance and compassion." Motivational Interviewing is a critical tool for MCM. Many clients have substantial difficulty making changes around lifestyle and treatment, which are needed to live a healthy life. These courses are designed to provide all the information one needs to implement MI effectively with clients, and include:

1. MI Basics – Presents an overview of the basics of MI and the Motivational Interviewing Series
2. MI & Stages of Change – Examines how helpers can utilize the Stages of Change, together with MI to help conceptualize the change process
3. MI Step 1: Engage – Demonstrates how to help clients see the need and possibilities for change
4. MI & Harm Reduction – Demonstrates how MI and Harm Reduction can be used together to better engage clients in care and to set up programs and clients for success
5. MI Step 2: Focus – Provides strategies to help clients focus in a way that promotes positive life changes
6. MI Step 3: Evoke – Offers strategies to bring out change talk, which increases the likelihood that positive change will occur
7. MI & the Importance Ruler – Examines a key strategy that helpers can utilize to build client confidence and motivation to change
8. MI Step 4: Plan – Assists helpers to integrate MI language into treatment and service planning
9. MI & Medical Adherence – Provides helpers with research and strategies to maximize adherence and self-management through MI and other best practices

EVALUATION:

Coldspring Center will provide monthly progress reports to help managers monitor their staff's progress in the online trainings. Each online course also includes a short quiz at the end to assess knowledge acquisition. An in-person training evaluation and final report are provided at the completion of the program.
